

For Cabrillo Faculty: Flex, FIN and Funds

Flex Workshop: Wed, Aug 22nd:

Global Awareness and Personal Responsibility for Sustainability

How do we empower and inspire students facing the complex, vast and interconnected challenges of the “Age of Consequences?” How can we help each other become the teachers that students and our planet need us to be? Sustainability encompasses social, economic and environmental aspects of global citizenship for the future. What can we do to promote the students’ and school’s progress toward sustainability? What are we doing right at Cabrillo right now? We’ll share ideas and resources from the Engaged Interdisciplinary Learning for Sustainability grant and continue to develop our [Sustainable Curriculum Working Group](#) on the Faculty Inquiry Network ([FIN](#)).

3–5pm, Room 406

Michelle Merrill, Karen Groppi, Climate Initiative Task Force and Panel

There are still lots of Mini-Grants available to Cabrillo faculty for EILS activities. Go to <http://www.wiser.org/group/cabrillosustainability> or our Cabrillo [FIN](#) for more details. Contact [Michelle](#) or [Karen](#) for more information regarding the Mini-Grants or the [FIN](#).
